Registrars

Waratah Medical Services @ Morisset is a teaching practice that employs GP Registrars. A GP Registrar is a qualified doctor who is training to become a GP through a period of working and training in a practice. They will usually have spent at least two years working in a hospital before you see them in a practice and are closely supervised by a senior GP. Due to the nature of the GP Registrar training program, GP Registrars will stay in the practice for a limited time.

Home Visits

Home visits if appropriate will be arranged directly with your Doctor. Fees will be advised at the time of booking.

Phone Calls

It is possible to speak with your Doctor during surgery hours. Our receptionist or practise nurses will be able to assist you in most cases. However, if appropriate, the Doctor will return your call at lunch time or at the end of surgery. If your enquiry is urgent you will be able to speak to the doctor immediately.

Transfer of Notes

We acknowledge each patient's right to seek a further opinion or to transfer to another Doctor of their choice. Patients are required to sign an authority to transfer their file and there is a fee involved to cover the cost of the transfer. Please ask reception at time of signing for costs involved.

Test Results

Results are downloaded and checked on a daily basis. If your Doctor requires you to make a follow up appointment you will be phoned by our practice nurse to arrange a suitable time. This recalled appointment will be Bulk Billed provided you are registered with Medicare.

Registers

As part of our services, we will automatically add you to any relevant registers for example; Cervical Screening Register or Immunisation Register. If you do not wish for this, please speak with your Doctor.
